

Book of Romans Syllabus

COURSE DESCRIPTION:

A study of the book of Romans, including Paul's teaching on sin, salvation, the nature of humanity, victory over sin, predestination, our relationship with the Jews, and practical Christian living.

I. More than any other book in the Bible, the book of Romans has been used by Church leaders to develop Christian doctrine. Therefore, an understanding of Paul's teaching in this book is vital for anyone working in the modern Church.

II. Prerequisite: None

III. Program Objectives:

A. Cognitive

1. The student will gain a understanding of the book of Romans.
2. The student will grasp the biblical doctrines laid out in the book of Romans.

B. Performance

1. The student will be able to teach what he/she has learned.
2. The student will develop confidence in conversing about the related doctrines.

IV. Preassessment: None

V. Instructional/Learning Activities:

- A. The student will read the book of Romans.
- B. The student will watch and listen to the 10 lectures.
- C. The student will take and pass a 10-question quiz after each lecture.
- D. The student will take and pass the 50-question final exam.

VI. Corrective Learning Opportunities: After each quiz the student will receive a grade and then if performance is poor, listen to the lecture again and retake the quiz.

VII. Learning Resources, Materials, Tools, etc.
